

PRODUCT DESCRIPTION

The perfect solution to soil retention and erosion control. This anti-slip mat with a cellular structure creates stable and safe pathways.

FEATURES AND BENEFITS

- The hollow top allows grass to grow through the mat and establish a firm bond to the ground
- Large drainage holes for water and debris
- Heavy duty, solid rubber compound
- Simple and quick installation
- Easy maintenance
- Suitable for external use
- Typically used in muddy gateways and pathways
- Use under and around playground equipment
