

PRODUCT DESCRIPTION

Protect customers and employees from the spread of viruses, such as the Covid 19 coronavirus, with this clear roller shield. With a 2.2m length and chain operated, this shield is the perfect solution for trade counters, retail shops and between staff in the workplace. The sleek design and robust quality ensures this clear roller shield suits any working environment. It's a simple maintenance product with a clear PVC shield which can be simply washed with soap and water to keep it clean of germs. The quick installation options are either a rigid back bar or suspended ceiling clips. Guide wires are standard on both options to prevent any movement of the shield.

FEATURES AND BENEFITS

- Allows staff to work in normal confines while maintaining Government safety distancing measures.
- Helps prevent the spread of viruses where space is a premium
- Multiple installation options – Rigid back bar or suspended ceiling clips
- Clear robust solution for the workplace
